I have over 6 years strong hands-on experience in leading and implementing development of applications for iOS. In addition, strong interpersonal skills to execute projects from concept level to actual Development, Designing, Testing, Deployment and Documentation. Moreover, I am very comfortable working both as an individual and in a team, making my contribution to different sizes of projects as well as a dedicated team player with very good technical knowledge, organisational, interpersonal, analytical and problem-solving skills.

In Addition, I have good time management skills that allow me to be on top of my work at all times. In addition to this, I am constantly reflecting on my skills to upgrade my knowledge on the latest developments in the world of iOS.
